> REAL ESTATE LEGAL SERVICES

Real estate is one of the most sought-after fields today, and ACC has provided services to a large number of clients, from businesses to individuals, in this field.

OPERATIONAL AND BUSINESS PERSPECTIVE

ACC Law Firm always aims for sustainable development and accompanies clients in the field of legal consulting. To achieve this goal, the company constantly seeks and selects the best talents to add to its team. We always provide the best conditions for the development of our personnel through training and honing skills, experience, and the highest sense of responsibility, along with supporting them to become the most outstanding individuals in the industry. This helps our team become more professional and better meet the needs of customers.

We focus on developing the company's services and brand. With the desire to reach the international market, we continuously search for and research foreign-influenced services to provide the best solutions for customers. In particular, we specialize in foreign investment services and investment certificates, meeting the needs of customers in expanding their business scale and investing in new fields.

Right from the early days of establishment, whether simple or complex work entrusted to us by our customers, we always fulfill our mission with the word "HEART". We believe that, "HEART" is the crystallization of dedication, enthusiasm, prestige, professionalism, responsibility and knowledge accumulated day by day. Whatever it is, only when working with "HEART" can we achieve the highest results and keep a long-term relationship with our customers.

Besides, we have a view to create professionalism at work. Therefore, we always refine every little detail in service quality so that customers have absolute peace of mind when choosing us as a companion.

Not only that, we always put the word "FAITHFULNESS" on the top and look forward to long-term companionship with the customers on their business journey. This is also an advantage that helps **ACC Law Firm** have a firm foothold in the legal market.

THE VALUES THAT ACC BRINGS TO THE CUSTOMERS

Among many legal service providers, customers have trusted and entrusted the work to ACC Law Firm, which means that we have been chosen to be your companion. There is a saying by writer Edward Everett Hale: "Coming together is a beginning, keeping together is progress, working together is success", we always strive to show our customers cooperating with ACC Law Firm is a good start. During the working process and until the final goal for customers is reached, ACC always tries our best to achieve the highest work results and bring the most comfortable working experience to customers.

In fact, we do not focus too much on the number of customers who come to the company to experience the service, but what ACC is most interested in is how to retain the customers who have been working with us. Because a place that can retain customers from the beginning can only be the place with the most professional and satisfied working attitude. That's why, what ACC Law Firm is most proud of after more than twenty years of operation is that NO CUSTOMERS HAVE LEFT US.

That means ACC is still serving customers who have worked with us since the company was founded until now. The number of new customers increases over time proportional to the number of partners and loyal customers of ACC.

However, this does not mean that we will stand still with a stable customer base. Although the company has grown strongly both in breadth and in width, we have not forgotten to maintain the depth of our ego - always putting the word "HEART" in our work. All licenses, procedures and records completed by our company are guaranteed for QUALI-TY, not only in terms of knowledge, experience, service attitude of personnel but also in reasonable cost and attractive after-sales service.

Now, ACC Law Firm can almost meet all requirements of customers whenever they come to us and want to use the legal services that ACC provides.
